

National Doctors' Day – March 30th, 2023

In observance of National Doctors' Day, March 30, 2023, the Western Carolina Medical Society (WCMS) would like to take this opportunity to recognize and thank the physicians across Western North Carolina for their strong commitment to the health and well-being of our communities. We celebrate the commitment to exceptional medical care, unwavering patient advocacy and the dedication to increasing the health of their patients and communities. We acknowledge that this work often requires a sacrifice of time with their family and their own personal time.

Doctors' Day is an annual way of saying thank you for keeping our community healthy and a reminder to give that same great care to yourself and your colleagues. We are privileged to have some of the most skilled and dedicated physicians in the country here.

We are particularly grateful for physician support of Project Access[®]. More than 700 area physicians donate their time and talent to care for low-income, uninsured patients, working to address inequities in healthcare. Our region is healthier and better because of their daily doses of impact.

WCMS strives to have a community of Healthy Healers and is here to support physicians throughout the year. This March 30th, let's celebrate all those who practice the profession of medicine in WNC.

For more information about WCMS, Healthy Healers, or Project Access visit www.mywcms.org or contact Casey Taylor at casey@mywcms.org.

In gratitude,

Elisa Quarles
CEO
Western Carolina Medical Society

Dr. Rachel Keever
Chair, Board of Directors
Western Carolina Medical Society
